The Swiss Contribution Office, integrated to the Embassy of Switzerland in Romania, ensures smooth communication between the actors in the two countries and supports both programming and implementation of the 11 programmes

The Swiss State Secretariat for Economic Affairs is financing the Metrorex Programme in Romania

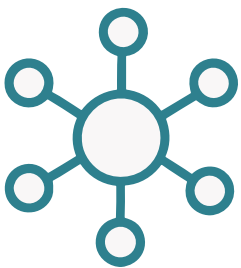

METROREX PROGRAMME COMPONENTS:

1 In order to improve the access to the Bucharest metro for people with disabilities/reduced mobility, the first component aims at contracting an entity that will firstly assess the current situation of the metro network and infrastructure, followed by developing a comprehensive strategy mainly focused on inter-modality solutions, and finally by presenting an investment plan. The entity is to be selected following a public procurement launched by Metrorex S.A.

Once the investment plan is developed, technical designs and procurement for the necessary infrastructure will be prepared, by prioritizing the needs. In addition, based on the comprehensive strategy proposed under the first component, METROREX S.A will start to implement the proposed measures.
